

# Postcard Assignment

You have been hired by the principal of Adam Scott C.V.I. to create a card that sells the school in a super light. Having been here for over a month you've had a chance to see some of the great things going on and the activities that make this one of the top schools in the province.

Create the definitive card to show the world why this school is number one.

Next, you will be using this card to send a short message back to your old school about how things are going at ASCVI. Your goal is to promote the school and help cut the tension that often happens with grade seven and eight students as they anticipate coming to a new school. You are the experts. Tell them something about this new school that they would probably want to know about.

Evaluation:

50 marks for creativity of card

50 marks for ideas and information back to your old school.
